

Piergiorgio Landini e Gerardo Massimi

Atlante dei grafici delle aree urbane del Mezzogiorno nei primi anni Novanta

L'atlante è adattato da: Piergiorgio Landini e Gerardo Massimi, a cura di (con la collaborazione di Tiziana Massimi, Manuela Marrama e Barbara Grugnale), *Processi di convergenza e divergenza tra industria manifatturiera e servizi alle imprese negli ambiti territoriali nel Mezzogiorno. Stato di fatto e dinamica nei primi anni Novanta**.

*Ricerca svolta nell'ambito del progetto – promosso da Società Geografica Italiana-Convenzione con il Consiglio Nazionale delle Ricerche – *Processi di territorializzazione e regionalizzazione dell'economia italiana. Linea 2. Strategie economiche e territoriali per il rafforzamento delle regioni meridionali nel contesto europeo e mediterraneo*. I risultati sono stati pubblicati dalla Società Geografica Italiana (Roma, 2001) in un volume contenente un CD dal quale sono stati estratti, con adattamenti, i materiali qui riportati.

Pescara febbraio 2006

Avvertenza

Le aree urbane dei capoluoghi di provincia, al censimento 1991 e al censimento intermedio 1996, sono illustrate da quattro grafici dedicati ai seguenti aspetti (nell'ordine, dall'alto in basso e da sinistra a destra):

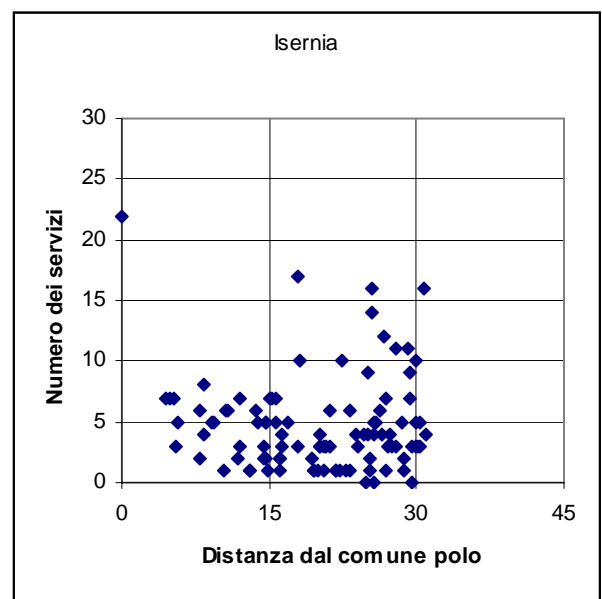

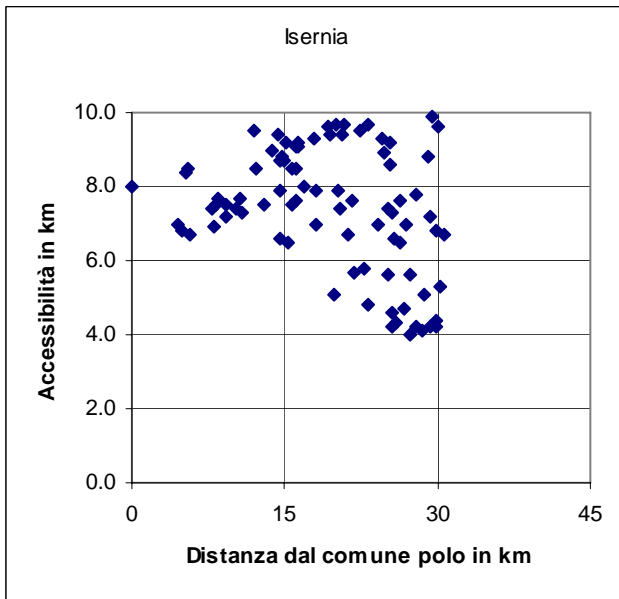

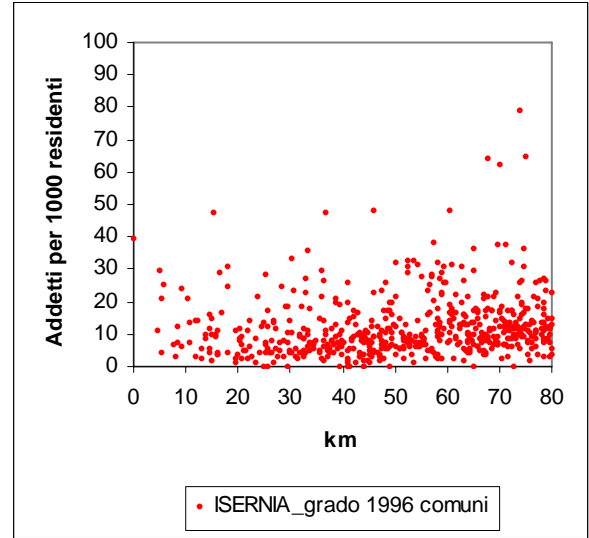

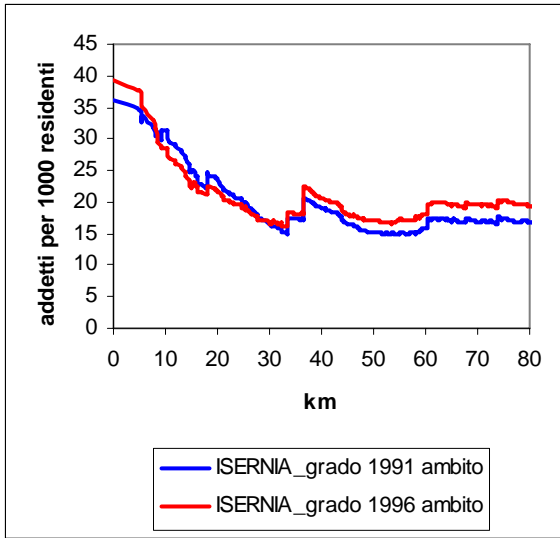

- a) Addetti per 1000 residenti al crescere della distanza dal comune capoluogo di provincia: valori cumulati , al censimento 1991 e al censimento intermedio 1996;
- b) Addetti per 1000 residenti al crescere della distanza dal comune capoluogo di provincia: valori propri dei singoli comuni al censimento intermedio 1996;
- c) Accessibilità per servizio (nell'ipotesi di minimo sforzo) al crescere della distanza dal comune capoluogo di provincia: valori propri dei singoli comuni al censimento intermedio 1996;
- d) Numerosità dei servizi presenti al crescere della distanza dal comune capoluogo di provincia: valori propri dei singoli comuni al censimento intermedio 1996.
